

OUR STRENGTH:

- *We turn your idea (the first sparks engineering) into a working product by taking into account every single step and component.
- *Acquire knowledge and provide or return the finest experiences to the customers.
- *Over 15 years of professional expertise, First Sparks Engineering Services has strong experience based on real-world and scientific approaches.
- *We have an engineering department that includes procurement (the source, import, and export from around the world), mechanical and electrical engineering, and computer engineering.
- *We have a dedicated R&D department (design and development for Research , industries, university staff, investors, and sponsors).
- *Innovation, creativity, forward-thinking, classics, and advanced technology are all things we strive for while developing the greatest possible product that is also affordable for our customers.
- *We are the best opportunity for you to invest in and turn your idea into a business.
- *Our aim is to provide the industry with high-caliber services at competitive prices, delivered on schedule. Our processes are always being improved in order to reduce expenses and increase client satisfaction.
- *Our business has obtained ISO 9001-2015 and QMS (Quality Management System) certifications.
- *FS Engineering is well equipped and has a dedicated QC team.
